

## Life as a TG student

### Starting in reception

The day I started TG I was terrified. I can vaguely remember looking round at everyone on the table, and now those people have a place in my mind and heart.

### My most funny or embarrassing moments!

One of the many funny memories is when I was at the summer fair. Camille and I decided to go head first on the bouncy castle slide. As we were allowed to go down together, we decided to do that. Unfortunately, we both broke our finger at the same time the same day and in almost the same way!

### Friendships

Throughout my life in TG I have made many amazing friends and just the thought of leaving them makes me feel so sad. I have had some happy and unhappy moments but my friends have always been there for me and I have been there for them too. I am hoping that they will stay in touch with me.

### Conclusion

Overall, I have treasured my time at TG all the way from reception up until now.
