

☺ My Time at TG ☺

My time at Temple Grafton has by far been the best and most memorable 6 years of my life!

Joining TG

I vividly remember walking into Class 2 for the first time. I was terrified. But as soon as I saw the children and teachers in that class I felt relieved. I walked in to people smiling at me, welcoming me and showing me around. This is where my TG journey started.

Amusing Memories

In Year 4, I sat on a table with Harriet. For the whole of one lunchtime we were in hysterics, to the point where I made her choke on a yogurt. Yet, she proceeded to feed herself the yogurt whilst choking. As you can tell, common sense wasn't used.

Teachers

Overall, I love all the teachers in this amazing school. They are all so caring and kind. Thank you everyone for supporting me throughout my TG journey!

Conclusion

I just wanted to say I hope my friends have a wonderful time at high school. I also wish the best for the rest of the TG family!

Love, Carlee!
