### My Experience at TG

My experience at TG has been positive during my 7 years and I have fun, silly and strange memories.

I remember, in reception, I had absolutely no idea what I was doing and wondered when we were going back home. As you can expect, I was petrified when my mum just left me there and I tried to get out of the door to follow her but, surprise, surprise, I couldn't open it, so I decided to sit down and deal with it. And to my surprise we were able to play a lot and I had a lot of fun.

This year, when we were on the bottom playground, I was playing with my buddy, and some others, and they decided to lock me up in "Prison". There were "guards" that looked away every 5 seconds, so I came to the conclusion that it would be best to slip away to the other side of the field. After a minute or two, they realised that I was missing and chased after me. This repeated several times until I just gave up and then break ended.

Overall, this was a great academic year even though we had the setback of lockdown we worked hard and had fun.
