Support you to build relationships with professionals.

Provide emotional support by phone, text or online.

Voice for Parents

Advocates for you

About Us:

Voice for Parents is a free, voluntary service run by a charity called Hurdle.

We support mums, dads, and carers in Warwickshire who have children involved in child protection processes.

We know that having children's social care involved in your family's life can feel confusing, and scary.

You might feel unsure, unheard, or alone. We are here to support you and help make this process easier.
