Class 3 Design Technology

Dear Class 3 Parents

Design Technology Project

In design technology, we have started a healthy eating project to design, make and evaluate a healthy sandwich.

I am sending home today a sheet for the children to record their lunches over the weekend and please bring back in on Monday.

(If they would also like to extend this to then research and record the **“food miles”** (or kilometres) some of their food has travelled to reach them, this would link brilliantly with our geography topic of where our food come from. They could include the **food, place of origin and distance travelled**. They could even calculate the total food miles for their lunch.)

On Thursday 12th December, we will be doing a design technology project to design and make their sandwiches. In order for us to complete this learning, I would like to ask for your support in the following ways:

1) I would be grateful if all the children could make a donation of £1 towards the cost of the food. Please send in a named envelope.

2) I would really appreciate some extra adult help in the classroom for our sandwich making on the **morning sessions - 1 09:30 – 10.30 and session 2 10:45-12 noon on Thursday 12th December**. As many extra hands as possible would be appreciated to help with chopping, grating, spreading etc. If you or a member of your family (grandparents, aunties, uncles are very welcome too!) are able to help, please let the office know.

Thank you for your support

Mrs Yorke
