

Area

$$\text{Area of rectangle} = L \times B$$

Breadth (B)

Length (L)

$$\text{Area of triangle} = \frac{1}{2} B \times H$$

Height (H)

Base (B)

$$\text{Area of circle} = \pi \times r^2$$

(π or 'Pi' = 3.14)

Radius (r)

$$\text{Area of parallelogram} = B \times H$$

Base (B)
