

What it means to be a pupil at TG

Introduction

Although my journey at TG has had its ups and downs, I wouldn't ever want to change my experience here. Since Reception class I have made many memories with my wonderful friends and teachers; I have made some special bonds that I truly believe will last forever.

The beginning

I remember my first day at TG like it was yesterday; time has flown by so fast and it's hard to believe everyone is moving on. I have enjoyed my time here from the very start and although year six has been an eventful year, I have had all my friends to help me through it.

Favourite memories

I have made some brilliant and hilarious memories at TG that I will never forget, but one of my favourites is a very recent one: the time we went to Heart of England Forest and went down the mud slide. We all had so much fun and got (very) muddy. Maecie was so obviously queen of the mud slide and did multiple forward rolls, covering herself almost completely in glorious mud!

What has TG done for me

TG has made me resilient and confident and has made me a polite and helpful person; we have been taught to be kind and respectful and I will never forget this advice.

Overall

I am very grateful for everything the teachers and the school have done for me: I will never forget them but I am excited to make new friends and have new experiences and challenges.
